City of Madison Playground Surfacing Options Comparison

Recycled Shredded Rubber	Engineered Wood Fiber Mulch
• Meets U.S. Access Board's ADA Accessibility Guidelines for Play Areas	• Meets U.S. Access Board's ADA Accessibility Guidelines for Play Areas
• Meets CPSC fall height requirements	• Meets CPSC fall height requirements
• Softer play surface material	• Not as soft as recycled shredded rubber
• Provides alternative use for recycled tires	• Created by the City from fallen trees and limbs that would otherwise be chipped for mulch
• Sandalwood/brown color-coated to reduce heat impact compared to non-coated black recycled rubber	• More likely to get mold and mildew spores
• Higher initial cost, lower maintenance cost	• Lower initial cost, higher maintenance cost
• Needs to be topped off every 5 years depending on site conditions and use	• Needs to be topped off every 1 to 3 years depending on site conditions and use
• Non-biodegradable	• Biodegrades
• Thaws fast, playgrounds available throughout the year	• Thaws slowly, playground use limited during winter conditions

Next Steps

Please plan on joining Madison Parks for the second meeting for the playground replacement for Marshall Park, where we will be reviewing and discussing proposed playground designs.

Next Playground Meeting (via Zoom): TBD

Additional information related to this project is posted on the Parks Project Portal, here:
