

Olbrich Park - North Parcel

Park Development Plan Option 1

Parking Lot

Provide approx. 75 parking stalls to serve park users as well as overflow parking for events at Garver Feed Mill and Olbrich Botanical Gardens. Will include paths for pedestrians and stormwater management features. Approx. Pavement Area: 30,000 sq. ft.

Picnic Area

Seating area in predominantly mowed turf area with trees could include picnic tables, open air shelter, and permanent outdoor yard games for year round recreational opportunities.

Play Area

Small nature-based play area for children.

Example
Images

Open Field Area

Turf area for open play.

Managed Meadow

Restore area with native grasses and forbs and include walking trails for wildlife and nature viewing.

Berm

Varying height from 2-4 feet and planted with native grasses and trees to provide buffers between uses.

Olbrich Botanical Gardens Maintenance

Area for storage and stockpiling of natural materials for Olbrich Botanical Gardens. Materials could include soil, mulch and non-food compost. Area would not include any enclosed buildings.

Existing Wooded Areas and Wetlands

Existing wooded areas and wetlands will not be developed. Debris from previous site uses will be removed. These areas will be maintained in accordance with Parks Division's Land Management Plan.
