Mario,

I will forward this correspondence to the zoning administrator, but first I will need you to clarify the address of the property for which you are opposing the fence. I believe that I know, but will need verification of that address.

Thank you.

**Subject:** Daycare

Hello my name is Jose cantu. I am currently living at 27 Kanazawa circle in madison wisconsin. i had some concerns about the building of the daycare behind my house. What my main concern at the moment is the fence that this person currently has up. Before the construction of the new fence i need to know how the layout of this is going to be. I also need to have a say in this as well as to what the plans are because i want it to suite me as well as possible. If there could be a second meeting on this project just to go over everything before the building begins i would appreciate if i was invited to speak out for myself there. In any case that i dont have a say in any of this i WILL be bringing my lawyer into this, but i would prefer not to do that. all in all i just need to know whts going and and i will be happy.
