RE: Approval of a conditional use for a walk-up service window located within 10 feet of a public right of way to allow operation of a walk-up service window for a restaurant located on the first floor of a mixed-use building at 418 E. Wilson Street.

Dear Mr. Berge;

At its May 20, 2013 meeting, the Plan Commission found the standards met and **approved** your conditional use for a walk-up service window at 418 E. Wilson Street. The following conditions of approval shall be satisfied prior to commencing use of the walk-up service window:

Please contact Janet Dailey of the City Engineering Division at 261-9688 if you have questions regarding the following three (3) items:

1. The applicant shall replace all sidewalk and curb and gutter abutting the property, which is damaged by the construction, or any sidewalk and curb and gutter that the City Engineer determines needs to be replaced because it is not at a desirable grade regardless of whether the condition existed prior to beginning construction.
2. All work in the public right of way shall be performed by a City-licensed contractor.
3. The applicant shall submit, prior to plan sign-off, digital PDF files to the City Engineering Division. The digital copies shall be to scale, shall have a scale bar on the plan set, and shall contain the following items: building footprints; internal walkway areas; internal site parking areas; lot lines and right-of-way lines; street names, stormwater management facilities and; detail drawings associated with stormwater management facilities (including if applicable planting plans).

Please contact Dennis Cawley of the Madison Water Utility at 261-9243 if you have any questions regarding the following two (2) items:

4. This property is in Wellhead Protection District WP-17. The proposed use is permitted in this district. Any proposed change in use shall be reviewed by the Water Utility General Manager or his designee.
5. Note: All operating private wells shall be identified and permitted and all unused private wells shall be abandoned by the Water Utility in accordance with MGO Section 13.21.

Please contact Eric Halvorson of the Traffic Engineering Division at 266-6527 if you have any questions regarding the following three (3) items:

6. When the applicant shall submit plans for approval, the applicant shall show the following: items in the terrace as existing (e.g., signs and street light poles), type of surfaces, existing and proposed property lines, addresses, one contiguous plan (showing all easements, all pavement markings, building placement, and stalls), adjacent driveway approaches to lots on either side and across the street, signage, percent of slope, semitrailer movements and vehicle routes, dimensions of radii, aisles, driveways, stalls including the two (2) feet overhang, and a scaled drawing at 1" = 20'. Contact City Traffic Engineering if you have questions.
7. The developer shall post a deposit and reimburse the City for all costs associated with any modifications to traffic signals, street lighting, signing and pavement marking, and conduit and handholes, including labor, engineering and materials for both temporary and permanent installations.
8. Public signing and marking related to the development may be required by the City Traffic Engineer for which the developer shall be financially responsible.

Please contact my office at 261-9632 if you have any questions about the following three (3) items:

9. Trash receptacles shall be placed and maintained along both street frontages of the building during hours of operation; the receptacles shall be stored indoors when window is closed. [Permanent installation of receptacles requires approval of a maintenance or privilege in streets agreement between the applicant and City.] The applicant shall work with Planning Division staff on the location and type of receptacles to be used prior to the issuance of permits to begin window service.
10. Restaurant staff shall remain following the end of window service to clean trash, disperse patrons and remove trash receptacles.
11. Signs shall be posted prominently in and near the service window encouraging patrons to be respectful of neighbors with regard to keeping the sidewalk open, limiting noise, using trash receptacles, parking, etc. The final content of the signs shall be approved by the Planning Division prior to issuance of permits to begin window service.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. Please revise your plans per the above conditions and submit **seven (7) copies** of a complete, fully dimensioned, and to-scale set of plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, Room LL-100, Madison Municipal Building, 215 Martin Luther King, Jr. Boulevard. The sets of final revised plans or documents will be circulated by the Zoning staff to the City department staff listed above for their final approval prior to the issuance of permits.
2. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval.

3. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. This approval shall become null and void one year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six months of the issuance of said building permit. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks
Planner

cc: Janet Dailey, City Engineering Division
Eric Halvorson, Traffic Engineering Division
Matt Tucker, Zoning Administrator
Dennis Cawley, Madison Water Utility
Bill Sullivan, Madison Fire Department

I hereby acknowledge that I understand and will comply with the above conditions of approval for this project.
