RE: Approval to demolish a single-family residence, construct a new single-family residence, and reconstruct a boat house on a waterfront parcel at 4942 Lake Mendota Drive

Dear Mr. Wanke:

At its August 23, 2010 meeting, the Plan Commission, meeting in regular session, approved your client's demolition and conditional use request to raze a single-family residence for the purpose of constructing a new single-family residence at 4942 Lake Mendota Drive. The Commission also granted conditional use approval for the reconstruction of a boat house on a waterfront parcel at the same address. In order to receive final approval of the demolition and conditional use and for permits to be issued, the following conditions must be met:

Please contact Janet Dailey, City Engineering Division, at 261-9688 if you have questions regarding the following five (5) items:

1. The design of the retaining wall on the east side yard shall be revised to direct drainage around the wall and to allow drainage to continue in existing patterns.
2. The 1"=10' scale shown on the landscape plan makes it appear this plan has been reduced for application purposes. The landscape plan does not show the existing sanitary sewer. No improvements of any kind, including landscaping, are permitted over the existing public sanitary sewer. Informational note: The existing public sanitary sewer main shown on Walker Surveying Inc. Plat of Survey is contained within public easement grant to the city of Madison per recorded easement Document No. 0964094 recorded August 22, 1958.
3. All work in the public right-of-way shall be performed by a City licensed contractor.
4. The applicant shall obtain all necessary sewer connection permits and sewer plugging permits prior to any utility work. This permit application is available on line at:
<http://www.cityofmadison.com/engineering/permits.cfm>.
5. Prior to approval of the application, the owner shall obtain a permit to plug each existing sanitary sewer lateral that serves a building that is proposed for demolition. For each lateral to be plugged the owner shall deposit \$1,000 with the City Engineer in two separate checks in the following amounts: (1). \$100 non-refundable deposit for the cost of inspection of the plugging by City staff; and (2). \$900 for the cost of City crews to perform the plugging. If the owner elects to complete the plugging of a lateral by private contractor and the plugging is inspected and approved by the City Engineer, the \$900 fee shall be refunded to the owner. This permit application is available on line at
<http://www.cityofmadison.com/engineering/permits.cfm>.

Please contact Pat Anderson, Assistant Zoning Administrator, at 266-5978 if you have any questions regarding the following seven (7) items:

6. Lake front development shall comply with City of Madison General Ordinances Section 28.04 (19) The cutting of trees and shrubbery shall be limited in the strip of land 35' inland from the normal waterline. Provide a landscape plan to show landscape elements to be removed and show a detailed plan showing sizes and number of landscape elements to be added to the site. In addition, not more than 30% of the frontage of the lot shall be cleared of trees and shrubbery. (Note: Within the waterfront setback requirements tree and shrub cutting shall be limited to consideration of the effect on water quality, protection and scenic beauty, erosion control and reduction of the effluents and nutrients from the shoreland.)
7. Show designated flood plain area on the site plan. Any construction within a flood plain shall meet flood proofing protection measures and such design shall be certified by a registered professional engineer or architect per 28.04(20)(b) of the Madison General Ordinances.
8. Boathouse setback shall be a minimum of three feet from the side lot line and the ordinary high water mark.
9. Provide a reuse/recycling plan, to be reviewed and approved by The City's Recycling Coordinator, Mr. George Dreckmann, prior to a demolition permit being issued
10. Sec 28.12(12)(e) of the Madison Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
11. Zoning Board of Appeals on July 8, 2010 approved a variance of 7.7' as per the plans submitted. Proposed new residence to be setback 69.8' to the ordinary high water mark of Lake Mendota.
12. Note – Any earth disturbing activity along the lake shore (rip rap, seawalls) may require a permit from the Department of Natural Resources. For more information contact the DNR at 266-2621.

Please contact my office at 267-1150 if you questions on the following item:

13. The applicant's final sign-off plans shall include dimensioned elevation drawings for all sides of the building that label the finished-grade elevations at the building corners for approval by Planning Division staff.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Please now follow the procedures listed below for obtaining your demolition permit:

1. Please revise your plans per the above and submit **six (6) copies** of a complete plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off.
2. A reuse and recycling plan approved by the Recycling Coordinator is required by ordinance prior to the issuance of a wrecking permit.

3. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting demolition and/or building permit approval.
4. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. This approval shall become null and void one year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six months of the issuance of said building permit. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved demolition permit and conditional use permit.

If you have any questions regarding obtaining your demolition or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at 267-1150.

Sincerely,

Kevin Firchow, AICP
Planner

cc: Janet Dailey, City Engineering Division
Pat Anderson, Asst. Zoning Administrator

I hereby acknowledge that I understand and will comply with the above conditions of approval for this demolition permit.

Signature of Applicant

Signature of Property Owner (if not the applicant)
