March 25, 2015

Captain Jay Lengfeld
Madison Police Department

RE: Approval of a demolition permit to allow a single-family residence located at 4016 Mineral Point Road to be demolished to accommodate the future construction of the Midtown police station.

Dear Captain Lengfeld;

At its March 23, 2015 meeting, the Plan Commission found the standards met and **approved** your demolition permit for 4016 Mineral Point Road. The conditions of approval in the following sections shall be satisfied prior to issuance of demolition or building permits for the project.

Please contact Janet Schmidt of the City Engineering Division at 261-9688 if you have questions regarding the following five (5) items:

1. The address of 4016 Mineral Point Road will be retired with the demolition of the house.
2. The future site development for the Midtown Police Station will require a future Certified Survey Map to combine this property with 4018 Mineral Point Road and to dissolve the underlying lot lines prior to issuance of building permits. The applicant shall be aware that as part of any redevelopment, additional right of way for Mineral Point Road between this parcel and Westmorland Boulevard may be required.
3. The applicant shall close all abandoned driveways by replacing the curb in front of the driveways and restoring the terrace with grass.
4. The applicant shall submit, prior to plan sign-off, digital PDF files to the City Engineering Division. The digital copies shall be to scale, shall have a scale bar on the plan set, and shall contain the following items: building footprints; internal walkway areas; internal site parking areas; lot lines and right-of-way lines; street names, stormwater management facilities and; detail drawings associated with stormwater management facilities (including if applicable planting plans).
5. Prior to final approval of the demolition permit, the owner shall obtain a permit to plug each existing sanitary sewer and/ or storm sewer lateral that serves a building that is proposed for demolition. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing lateral that serves a building which is proposed for demolition. For each lateral to be

plugged, the owner shall complete a sewer lateral plugging application and pay the applicable permit fees.

Please contact Eric Halvorson of the Traffic Engineering Division at 266-6527 if you have any questions regarding the following two (2) items:

6. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including 2 feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
7. All parking facility design shall conform to the standards in MGO Section 10.08(6).

Please contact Dennis Cawley of the Madison Water Utility at 261-9243 if you have any questions regarding the following item:

8. The Madison Water Utility shall be notified to remove the water meter prior to demolition. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility in accordance with MGO Section 13.21.

Please contact Pat Anderson, Zoning Inspector, 266-5978 if you have any questions regarding the following two (2) items:

9. Provide a reuse/recycling plan, to be reviewed and approved by the City's Recycling Coordinator, George Dreckmann, prior to a demolition permit being issued. MGO Section 28.185(7)(a)5 of the Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
10. Approval of the demolition permit will require the removal of all structures including the driveway landscaped and seeded to minimize erosion, remove driveway and apron and replace with curb and gutter as per City Engineering and Traffic Engineering requirements. During demolition and prior to curb and gutter, installation of barriers shall be installed across the driveway to prevent the parking of vehicles.

Please contact Bill Sullivan of the Madison Fire Department at 261-9658 if you have any questions regarding the following item:

11. Please consider allowing the Madison Fire Department to conduct training sequences prior to demolition. Contact Lt. Scott Bavary of the MFD Training Division to discuss this possibility at 576-0600.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or

building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. Please revise your plans per the above conditions and submit **seven (7) copies** of a complete, fully dimensioned plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off.
2. Approval of plans for this project does not include any approval to prune, remove or plant trees in the public right of way. Permission for such activities must be obtained from the City Forester, 266-4816.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

TIMOTHY M. PARKS
Planner
