RE: Approval of a demolition permit to allow the demolition of a tree-damaged single-family residence located at 5102 Spring Court in Merrill Springs Park.

Dear Ms. Rutledge;

At its October 27, 2014 meeting, the Plan Commission found the standards met and **approved** your demolition permit for 5102 Spring Court. The conditions of approval in the following sections shall be satisfied prior to issuance of demolition or building permits for the project.

Please contact Janet Schmidt of the City Engineering Division at 261-9688 if you have questions regarding the following two (2) items:

1. The applicant shall submit, prior to plan sign-off, digital PDF files to the City Engineering Division. The digital copies shall be to scale, shall have a scale bar on the plan set, and shall contain the following items: building footprints; internal walkway areas; internal site parking areas; lot lines and right-of-way lines; street names, stormwater management facilities and; detail drawings associated with stormwater management facilities (including if applicable planting plans).
2. Prior to final approval of the demolition permit, the owner shall obtain a permit to plug each existing sanitary sewer and/ or storm sewer lateral that serves a building that is proposed for demolition. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing lateral that serves a building which is proposed for demolition. For each lateral to be plugged, the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. Note: New plugging procedures and permit fees are in effect as of January 1, 2013.

Please contact Dennis Cawley of the Madison Water Utility at 261-9243 if you have any questions regarding the following item:

3. The Madison Water Utility shall be notified to remove the water meter prior to demolition. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility in accordance with MGO Section 13.21.

Please contact Pat Anderson, Assistant Zoning Administrator, 266-5978 if you have any questions regarding the following two (2) items:

4. Provide a reuse/recycling plan, to be reviewed and approved by the City's Recycling Coordinator, George Dreckmann, prior to a demolition permit being issued. MGO Section 28.185(7)(a)5 of the Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
5. Approval of the demolition permit will require the removal of all structures, including the driveway as per City Engineering and Traffic Engineering requirements.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. Please revise your plans per the above conditions and submit **six (6) copies** of a complete, fully dimensioned plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off.
2. Approval of plans for this project does not include any approval to prune, remove or plant trees in the public right of way. Permission for such activities must be obtained from the City Forester, 266-4816.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.
