RE: Approval of a demolition permit to demolish an office building to expand an automotive display area in Urban Design District 3 at **5775 Tokay Boulevard and 5712 Odana Road.**

Dear Mr. Triatik:

At its November 24 2014 meeting the Plan Commission, meeting in regular session, approved your client's request for a demolition permit to demolish an office building to expand automotive display area at 5775 Tokay Boulevard and 5712 Odana Road. In order to receive final approval of the demolition and for permits to be issued, the following conditions must be met:

**Please contact Janet Schmidt, Engineering Division at 261-9688 if you have questions regarding the following twelve (12) items:**

1. Correct the boundary and legal description of the parcel shown on the plans. Certified Survey Map No. 13717 was recently recorded. The Certified Survey Map dedicated additional lands along Odana Road that the plans are not correctly acknowledging.
2. Upon correcting the location of the right of way of Odana Road, applicant shall make any adjustments that may be needed in regard to the location of the proposed improvements shown on the plan to comply with any required zoning setbacks. Contact City of Madison zoning staff regarding zoning setback requirement questions.
3. The site plan is proposing parking lot improvements within private easements. Applicant/owner is responsible to confirm and comply with any conditions and/or restrictions regarding those easements.
4. The site plan shall identify lot and block numbers of recorded Certified Survey Map or Plat.
5. The site plan shall include a full and complete legal description of the site or property being subjected to this application.
6. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil

Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 7.5-tons per acre per year.

7. Effective January 1, 2010, The Department of Commerce's authority to permit commercial sites, with over one (1) acre of disturbance, for stormwater management and erosion control has been transferred to the Department of Natural Resources (WDNR). The WDNR does not have an authorized local program transferring this authority to the City of Madison. The City of Madison has been required by the WDNR to continue to review projects for compliance with NR216 and NR-151 but a separate permit submittal is now required to the WDNR for this work as well. The City of Madison cannot issue our permit until concurrence is obtained from the WDNR via their NOI or WRAPP permit process.

As this site is greater than one (1) acre, the applicant is required by State Statute to obtain a Water Resources Application for Project Permits (WRAPP) from the Wisconsin Department of Natural Resources, prior to beginning construction. This permit was previously known as a Notice of Intent Permit (NOI). Contact Eric Rortvedt at 273-5612 of the WDNR to discuss this requirement.

Information on this permit application is available on line

<http://dnr.wi.gov/Runoff/stormwater/constrformsinfo.htm> (NOTIFICATION)

8. Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to a) Reduce TSS off of the proposed development by 80% when compared with the existing site; b) Provide oil & grease control from the first 1/2" of runoff from parking areas; and c) Complete an erosion control plan and complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website – as required by Chapter 37 of the Madison General Ordinances.
9. The applicant shall submit, prior to plan sign-off, digital PDF files to the Engineering Division (Jeff Benedict or Tim Troester). The digital copies shall be to scale, and shall have a scale bar on the plan set. (POLICY and MGO 37.09(2)) PDF submittals shall contain the following information: a) building footprints, b) internal walkway areas, c) internal site parking areas, d) lot lines and right-of-way lines, e) Street names, f) Stormwater Management Facilities, and g) detail drawings associated with stormwater management facilities (including if applicable planting plans).
10. The Applicant shall submit prior to plan sign-off, electronic copies of any Stormwater Management Files including a) SLAMM DAT files; b) RECARGA files; c) TR-55/HYDROCAD/Etc; and d) Sediment loading calculations.
11. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. NOTE: As of January 1, 2013 new plugging procedures and permit fees go into effect. The new procedures and revised fee schedule is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>. (MGO CH 35.02(14))
12. All outstanding Madison Metropolitan Sewerage District (MMSD) are due and payable prior Engineering sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Janet Schmidt (608-261-9688) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering signoff. (MGO 16.23(9)(d)(4))

**Please contact Patrick Anderson, Assistant Zoning Administrator at 266-5978 if you have questions regarding the following five (5) items. Note these comments are based on the November 11, 2014 revised plans.**

13. The existing parking facility shows landscaping that is located within recently dedicated right-of-way of Odana Road. This landscaping shall be removed from the right-of-way or an encroachment agreement/lease shall be executed with the City Real Estate Department prior to issuance of any demolition permits.
14. Sec. 28.185 (7)(a)5. requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Mr. George Dreckmann. (608-267-2626).
15. Sec. 28.185 (10) Every person who is required to submit a reuse and recycling plan pursuant to Sec. 28.185(7)(a)5. shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.
16. Section 28.185(9) (a) A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.
17. Pursuant to Sec. 28.142(3) Landscape Plan and Design Standards: Landscape plans for zoning lots greater than ten thousand (10,000) square feet in size must be prepared by a registered landscape architect. The balance of the site must be brought to compliance with landscaping requirements

**Please contact Bill Sullivan, Madison Fire Department at 261-9658 if you have questions regarding the following item:**

18. Please consider allowing Madison Fire Dept. to conduct training sequences prior to demolition. Contact MFD Training Division to discuss possibilities: Lt Scott Bavery (608) 576-0600.

**Please contact my office at 261-9658 if you have questions regarding the following three (3) items. Note these comments are based on the November 11, 2014 revised plans.**

19. Except as noted, agency comments provided to the Plan Commission are based on the original submittal and the revised plans submitted November 11, 2014 were not provided to staff received in time to be reviewed by other City Agencies. If approved, the alternative site plan is subject to additional agency comments related to the proposed changes.
20. That the applicant shall revise the site and landscape plan to increase the frontage landscaping. The portion of the frontage landscape area along Odana Road that is currently part of the existing office development shall be increased to have a minimum depth of 10 feet (not including right-of-way). The planting plan shall be revised and include a revised plantings/plant schedule that provides additional plantings with height that complies with applicable ordinances. Final details shall be approved by staff.
21. Along with the requirements of Urban Design District 3, the future development of the parking lot is subject to Plan Commission approval. The standards of 28.185 (8) shall apply in addition to other applicable standards for the review of future development.

**This project is in Urban Design District 3. The applicant is also required to satisfy the conditions of approval of the Urban Design Commission prior to the final staff approval of the project and the issuance of building permits. Please contact Al Martin, Urban Design Commission Secretary, at 267-8740 if you have any questions about those conditions.**

**Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.**

**Please now follow the procedures listed below for obtaining your conditional use:**

1. Please revise your plans per the above conditions and submit eleven (11) copies of a complete, fully dimensioned and scaled plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off. The final site plan shall be accompanied by the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, Room LL-100, Madison Municipal Building, 215 Martin Luther King, Jr. Boulevard. The sets of final revised plans or documents will be circulated by the Zoning staff to the City department staff listed above for their final approval.
2. The Madison Water Utility shall be notified to remove the water meters prior to demolition. This property is not in a wellhead protection district. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility. The Water Utility will not need to sign off the final plans, and will not need a copy of the approved plans.
3. Approval of plans for this project does not include any approval to prune, remove or plant trees in the public right-of-way. Permission for such activities must be obtained from the City Forester, 266-4816.
4. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting demolition permit approval.
5. A reuse and recycling plan approved by the Recycling Coordinator is required by ordinance prior to the issuance of a wrecking permit. The reuse and recycling plan shall be submitted along with the resubmittal of site plans for forwarding to the Recycling Coordinator.
6. The approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
7. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.

5775 Tokay Drive and 5712 Odana Road
