RE: Approval of demolition permits to allow former automobile dealership buildings located at 801-819 and 802-854 E. Washington Avenue to be demolished to facilitate future redevelopment by others.

Dear Ms. Bemis;

At its July 9, 2012 meeting, the Plan Commission found the standards met and **approved** your demolition permit applications for 801-819 and 802-854 E. Washington Avenue, subject to the conditions below. In order to receive final approval of the demolition permits and for any necessary permits to be issued for your project, the following conditions shall be met:

Please contact Janet Dailey of the City Engineering Division at 261-9688 if you have questions regarding the following four (4) items:

1. The applicant shall close or abandon unused driveways as agreed to by the City Engineer.
2. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 7.5-tons per acre per year.
3. The applicant shall obtain all necessary sewer connection permits and sewer plugging permits prior to any utility work.
4. Prior to final approval of the demolition permit application, the owner shall obtain a permit to plug each existing sanitary and storm sewer lateral that serves a building that is proposed for demolition. For each lateral to be plugged, the owner shall deposit \$1,000 with the City Engineer in two separate checks in the following amounts: (1) \$100 non-refundable deposit for the cost of inspection of the plugging by City staff; and (2) \$900 for the cost of City crews to perform the plugging. If the owner elects to complete the plugging of a lateral by private contractor and the plugging is inspected and approved by the City Engineer, the \$900 fee shall be refunded to the owner.

Please contact Dennis Cawley of the Madison Water Utility at 261-9243 if you have any questions regarding the following two (2) items:

5. Both properties are located in a wellhead protection district. All proposed future uses of these sites shall be approved by the Water Utility General Manager or his/ her designated representative.
6. The Madison Water Utility shall be notified to remove the water meter prior to demolition. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility.

Please contact Pat Anderson of the Zoning Office at 266-5978 if you have any questions regarding the following three (3) items:

7. Provide a reuse/recycling plan, to be reviewed and approved by the City Recycling Coordinator prior to a demolition permit being issued. Sec 28.12(12)(e) of the Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
8. Approval of the demolition permits will require the removal of all structures including the driveways, except for those driveways approved as service drives for nearby construction projects. Driveways and aprons shall be replaced with curb and gutter as per City Engineering and Traffic Engineering requirements. During demolition and prior to construction of final curb and gutter, barriers shall be installed across the other driveways to prevent the parking of vehicles. The approved service drives shall be shown on final plans.
9. Future development shall meet applicable building and zoning ordinances, including site plan review and land use approvals.

Please contact Bill Sullivan of the Madison Fire Department at 261-9658 if you have any questions regarding the following item:

10. Note: Please consider allowing the Madison Fire Department to conduct training sequences prior to demolition. Contact the MFD Training Division at 246-4587 to discuss this possibility.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Approval of plans for this project does not include any approval to prune, remove or plant trees in the public right of way. Permission for such activities must be obtained from the City Forester, 266-4816.

Please now follow the procedures listed below for obtaining permits for your project:

1. Please revise your plans per the above conditions and submit **six (6) copies** of a complete, fully dimensioned plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off.
2. Provide a reuse/recycling plan, to be reviewed and approved by the City Recycling Coordinator prior to a demolition permit being issued. Sec 28.12(12)(e) of the Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
3. The Madison Water Utility shall be notified to remove the water meter(s) prior to demolition.
4. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

TIMOTHY M. PARKS
Planner
