Said drainage swale shall be graded with the construction of each principle structure and maintained by the lot owner unless modified with the approval of the City Engineer. Elevations depicted on Sheet 1 are for property corners at ground level and shall be maintained by the lot owner. Elevations are based upon NAVD88 Datum from published City of Madison Control.
2. All lots within this Certified Survey Map are subject to public easements for drainage purposes which shall be a minimum of 6-feet in width measured from the property line to the interior of each lot except that the easements shall be 12-feet in width on the perimeter of the Certified Survey Map. For purposes of two (2) or more lots combined for a single development site, or where two (2) or more lots have a shared driveway agreement, the public easement for drainage purposes shall be a minimum of six (6) feet in width and shall be measured only from the exterior property lines of the combined lots that create a single development site, or have a shared driveway agreement, except that the easement shall be twelve (12) feet in width along the perimeter of the Certified Survey Map. Easements shall not be required on property lines shared with greenways or public streets. Without prior written approval of the City Engineer, no buildings, driveways, or retaining walls shall be placed in any easement for drainage purposes. Fences may be placed in the easement only if they do not impede the anticipated flow of water. In the event of a City of Madison Plan Commission and/or Common Council approved re-division of a previously subdivided property, the underlying public easements for drainage purposes are released and replaced by those required and created by the current approved subdivision.
3. All lots created by this Certified Survey Map are individually responsible for compliance with Chapter 37 of the Madison General Ordinances in regard to storm water management at the time they develop.
4. Distances are ground and are measured to the nearest hundredth of a foot (0.01').
