Notes from Junction Ridge Plat

Arrows indicate the direction of surface drainage swale at individual property lines. Solid drainage swale shall be graded with the construction of each principal structure and maintained by the lot owner unless modified with the approval of the City Engineer.

Utility easement dimensions unless otherwise noted - no poles or buried cable to be placed on any lot line or lot corner. Disturbing a survey stake is a violation of section 236.32 (2) (3) Wisconsin Statutes.

NOTE: When Mineral Point Road is improved to urban design standard with a raised median, there will not be a median break along Mineral Point Road between the West Beltline Highway ramps and Junction Road except for a directional left-turn in only median break for westbound traffic turning into Commerce Drive.

As owner I hereby restrict all lots and outlots and in that no owner, possessor, user, nor licensee, nor other person shall have any right of direct vehicular ingress or egress with USH 12 & 14 or Mineral Point Road, as shown on the plat, it being expressly intended that this restriction shall constitute a restriction for the benefit of the public according to Section 236.293, Wisconsin Statutes, and shall be enforced by the Department of Transportation.

Easements, if any, of the public or any school district, utility, municipality or person, as provided in Section 80.32 (4) of the Statutes, for the continued use and right of entrance, maintenance, construction and repair of underground or overground structures, improvements or services in that portion of the captioned premises which were formerly a part of Junction Road, now vacated.

Limitations imposed upon ingress to and egress from the above-described premises to USH 12 & 14, including ramps and connection roads on the right-of-way thereof, as set forth in findings, determination and declaration by the State Highway Commission of Wisconsin dated April 12, 1950 and recorded August 10, 1950 in the Office of the Register of Deeds for Dane County, Wisconsin in Vol. 232 of Miscellaneous, page 204 as Doc #802720, wherein said highway is designated a controlled-access highway under the provisions of Section 84.25 of the Wisconsin Statutes.

Terms and conditions of a Planned Community Development - General Development Plan (POD (GDP)) and related zoning text as recorded in instrument recorded April 2, 1993 in the Office of the Register of Deeds for Dane County, Wisconsin in Vol 22180 of Records, page 1 as Doc #2451589; as amended in instrument recorded November 18, 1998 in the Office of the Register of Deeds for Dane County Wisconsin as Doc #2813702; as further amended in the instrument recorded August 27, 1997 in the Office of the Register of Deeds for Dane County, Wisconsin as Doc #2883405.

Terms and conditions of Deed Restriction dated August 15, 1997 and recorded August 19, 1997 in the Office of the Register of Deeds for Dane County, Wisconsin as Doc #2890900.

EASEMENTS AND EXCEPTIONS ACCORDING TO LAWYERS TITLE INSURANCE CORPORATION, CASE #42584X3 SCHEDULE B, SECTION 1

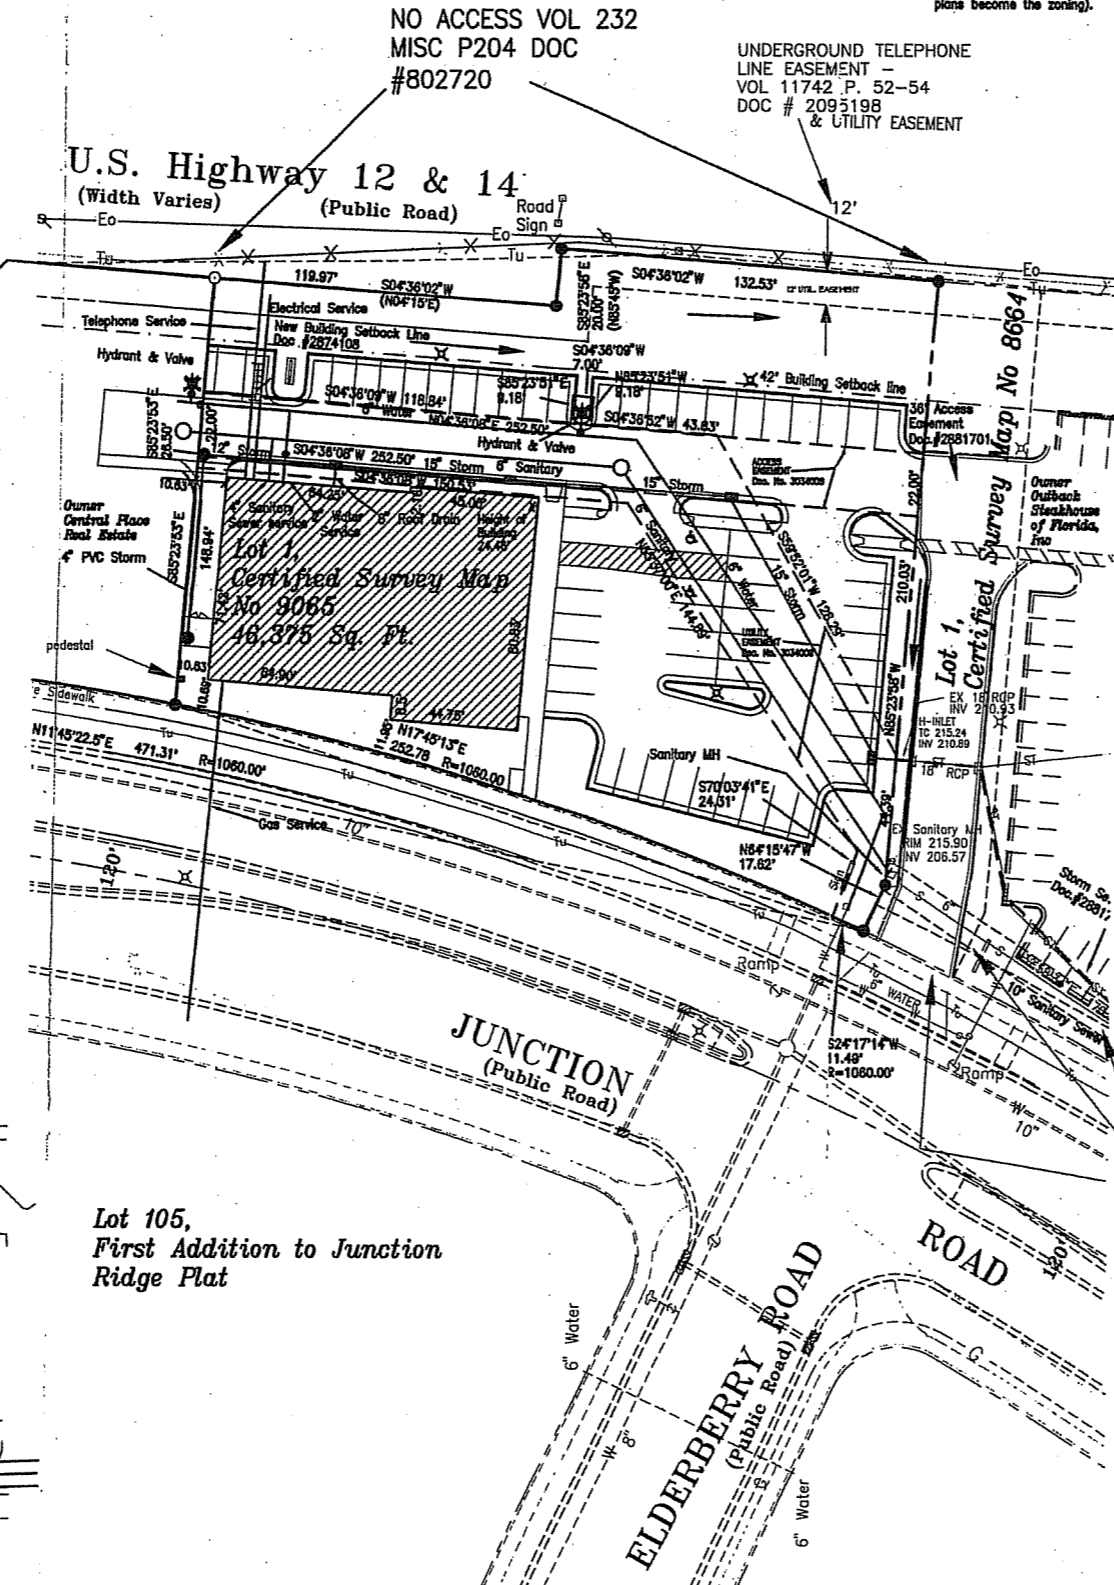

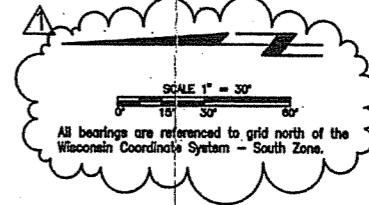

- Floor Ratio Tab
- The ground floor area of the subject property is 8,177 square feet.
 - The land area of the subject property is 48,375 square feet.
- Parking Tab
- There exists 57 regular parking spaces and 2 handicapped parking spaces on the subject property.

The locations of existing utilities installations as shown on this drawing were obtained from the records of municipality and local utility records. The accuracy of these records cannot be guaranteed or certified to. There may be other underground utility installations within the project area that are not shown.

Surveyed for:
Insite Real Estate Development
1603 Sixteenth Street
Oak Brook, IL 60521

Zoning is City of Madison, Planned Unit Development - Specific Implementation Plan (PUD - SIP) - (Approved plans become the zoning).

Surveyor's Certificate

The undersigned, being a registered surveyor of the State of Wisconsin, certifies to (1) MORGAN GUARANTY TRUST COMPANY OF NEW YORK, its successors and assigns, (2) InSite Madison, L.L.C., an Illinois limited liability company, J. P. Morgan Mortgage Capital, Inc. and Lawyers Title Insurance Corporation as follows:

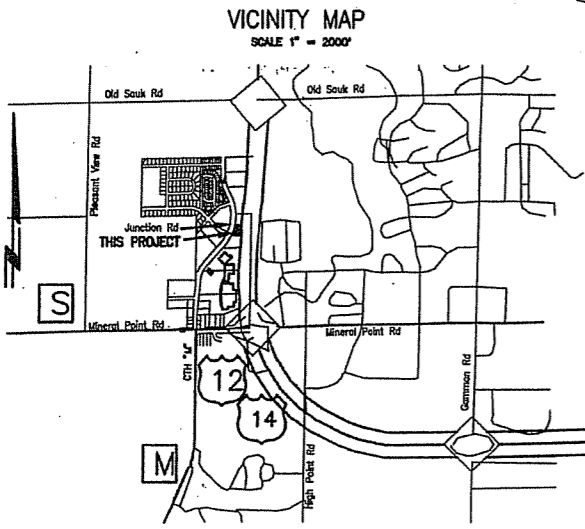

- This map or plat and the survey on which it is based were made in accordance with the "Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys," jointly established and adopted by the American Land Title Association and the American Congress on Surveying and Mapping in 1992 and meets the accuracy requirements for an Urban Survey, as defined therein.
- The survey was made on the ground on May 24, 1999 under my supervision and correctly shows the legal description and the land area of the subject property, the location and type of all visible above-ground buildings, structures and other improvements (including sidewalks, curbs, parking areas and spaces and fences) situated on the subject property, and other matters situated on the subject property.
- Except as shown on the survey, there are no visible easements or rights of way of which the undersigned has been advised.
- Except as shown on the survey, there are no party walls and no observable, above ground encroachments (a) by the improvements on the subject property upon adjoining properties, streets, alleys, easements, or rights of way, or (b) by the improvements on any adjoining properties, streets, or alleys upon the subject property.
- The location of each easement, right of way, servitude, and other matter (above or below ground) affecting the subject property and listed in the title insurance commitment no. 42584X3 dated May 6, 1999, issued by Lawyers Title Insurance Corporation with respect to the subject property, has been shown on the survey, together with appropriate recording references, to the extent that such matters can be located. The property shown on the survey is the property described in that title commitment. The location of all improvements on the subject property is in accord with minimum setback, side yard and rear yard lines, provisions and restrictions of record for the subject property referenced in such title commitment.
- The subject property has direct access to and from a duly dedicated and accepted public street or highway.
- Except as shown on the survey, the subject property does not serve any adjoining property for drainage, utilities, structural support or ingress or egress.
- The record description of the subject property forms a mathematically closed figure.
- By graphic plotting only, this property is in Zone C, Areas of minimal flooding, as indicated on Flood Insurance Rate Map - City of Madison, Dane County, Wisconsin, Panel 5 of 30, Community-Panel No. 550083 0005 D - Map revised March 5, 1998.

Dated this 1st day of July, 1999
