Andrew Howick
Director of Facilities Planning
608-263-9160, ahowick@uwhealth.org

Parcel Location

5117 University Avenue, Madison

SITE

The GDP site is 14.332 acres located at the southwestern corner of University Avenue and N. Whitney Way; Urban Design District 6; Aldermanic District 19 (Clear); Madison Metropolitan School District. The project requires the demolition of approximately 11 vacant existing commercial buildings located throughout the subject site. The existing five-story, 90,000 square-foot Wisconsin Public Service Commission (PSC) Building located in the southeastern corner of the subject site will remain and is not included in this PUD.

The SIP site is 3.74 Acres and is designated Lot 1 and Building 1.

Comprehensive Plan

The city of Madison Comprehensive Plan designates this site for Employment (E) and Neighborhood Mixed Use (NMU). The southeast corner of the site is also designated as a Transit Oriented Design (TOD) overlay located at the intersection of Whitney Way and Old Middleton Road.

Existing Zoning

The entire site is currently zoned C3 (Highway Commercial District) and is within a well-head protection zone, WP-14.

Existing Uses

Vacant Office, Vacant Restaurant, Vacant Warehouses, and Vacant Motel

Surrounding Uses

North: Single-family residences in the Spring Harbor neighborhood and Water Utility Well 14, zoned R1 (Single-Family Residence District)

South: Wisconsin Southern Railroad right of way and Old Middleton Road; Knupp, Watson & Wallman Advertising, zoned C2 (General Commercial District); single-family residences, zoned R2 (Single-Family Residence District); two-family residences, zoned R3 (Single- and Two-Family Residence District) and PUD-SIP

West: Trillium Homes, zoned R4 (General Residence District)

East: Multi-tenant commercial development, Taco Bell, zoned C3 (Highway Commercial District).

Design Description

This infill master plan is a multi-phase redevelopment designed to create an urban campus environment that includes a mix of complimentary uses. The project takes advantage of an existing under-utilized site within the city to help to reduce suburban sprawl and utilize existing infrastructure. The plan balances the need for increased density while being sympathetic to the surrounding uses and scale. The structures are closely spaced to create defined public street spaces with pedestrian friendly connections while maintaining access to day light and views. Parking structures are utilized to reduce the need for surface parking and to allow the buildings to be placed closer together. Streets will be designed to encourage pedestrian use and will have parallel parking to further define the pedestrian scale and urban nature of the development.

The 3 buildings to the North West of the site are intended to provide clinic space for the University of Wisconsin Hospital and Clinics. The buildings that define the corner of University Avenue and Whitney Way will have a mix of uses including retail, service commercial, office and hospitality. It is the intent that the retail component will provide a public gathering place for the neighborhood and will include a shared outdoor dining/gathering common space between the mixed use building, the hotel and the apartments.

Apartment units surround the internal parking structure to provide definition and activity to the 2 north south streets. A non-profit hospitality/residential component is located internally on a donated site near the round-about intersection. Along with the hotel, these buildings provide activity and ownership on the site after hours.

The mix of uses encourages walking, shared parking and activities in the evening.

A new north south bike path connection is planned for the west edge of the site to connect to the future planned bike path along Old Middleton Road. The site provides accessibility to diverse modes of transportation including pedestrians, bikes, buses, cars, and future rail.

Proposed Uses

The General Development Plan (GDP) includes 7 buildings and 3 parking structures. The following is a potential full site build out summary of uses. The final building area, apartment count and parking count will vary based on the Specific Implementation Plans. See Section 5.3 for building data.

Building 1	Clinic – Digestive Health Center – SIP
Building 1A	Clinic
Building 2	Clinic
Building 3	Non-Profit Hospitality
Building 4	Mixed Use, Retail, Service and Office
Building 5	Hotel, approximately 130 Rooms
Building 6	Apartment Homes –Approximately 65 units

Approximate Total Area	488,200 sf
Approximate Total Parking	1,360 - 1,460 stalls
Approximate Parking Ratio	2.78 to 2.99 per 1,000 sf

Environmental Sustainability

This project will follow sustainability guidelines. The first proposed clinic building is pursuing LEED Healthcare certification.

Sustainable Site

The project is a redevelopment of an existing site within the city. It provides increased density to reduce sprawl, utilizes existing infrastructure, and provides community connectivity with opportunities for biking, pedestrian access and transit use. The project includes a mix of uses including employment, retail and residential uses. The retail and residential uses compliment the employment use by allowing the employees to walk to the retail amenities and potentially walk to work. The mix of use also allows for sharing of parking stalls to reduce the amount of parking on the site. Landscaping will include indigenous species and will not include permanent irrigation.

LEED Certification

The first clinic building will be pursuing LEED for Healthcare designation.

Energy Efficient Buildings

The buildings will be much more energy efficient than the existing buildings on the site. The building shell and mechanical systems will be designed to provide increased energy efficiency. Sustainable strategies may include energy recovery, harvesting natural daylight and solar hot water heating.

Water Efficiency – roof water collection and reuse

The building's plumbing fixtures will be chosen to save water. Strategies may include roof water collection for flushing of toilets.

Recycling during demo and construction

During demolition and construction the contractors will be looking for ways to recycle as much as possible to reduce waste that ends up in the landfills.

Materials and Indoor air quality

The project will utilize low and zero VOC products to create healthy interior spaces, regional materials to reduce transportation energy and materials with recycled content to reduce resource use.

Architectural Design

The Architectural design of the buildings will be of their time, energy efficient, utilizing clean contemporary lines with warm and inviting materials. Special care will be taken for the buildings to respond to the pedestrian scale along the streets.

The buildings are intended to define the public spaces of the streets and the common plaza area between the proposed hotel and the mixed use building. An architectural review board will be established that includes the developer and the major land user; the UW Hospital and Clinics.

- External Mechanical Equipment will be screened.
- Trash dumpsters and service areas will be screened from public spaces.
- Building materials will be durable and low maintenance.

Signage

The signage for each of the buildings will be submitted during the SIP process. The design of the signage within the UW Hospital and Clinics sites will be designed to help to designate the area as a campus. The remainder of the office and commercial areas will have unique signage.

Schedule

The first clinic building is intended to be occupied by January 2013, with construction starting in November of 2011. The remainder of the site is intended to be completed within 5 years.

Demolition

It is the developer's intent to follow any and all City of Madison Demolition Recycling and Reuse regulations. As directed, ReStore will be contacted for items that can be removed for resale. Any and all appliances, which include HVAC equipment and water heaters, will be recycled and/or sold/reused. Devices that contain mercury, i.e. thermostats or fluorescent lights, will be recycled in the appropriate manner. Concrete, asphalt, and metal will be recycled for reuse.

Transportation Demand Management

The location of this site at the crossroads of University Avenue, Whitney Way and Old Middleton Road affords great opportunities for alternative forms of transportation. The design of the master plan includes amenities to encourage bike, pedestrian and bus usage. The UW Hospital and Clinics have a sophisticated TDM program to encourage multi modes of transportation to reduce single occupant vehicular trips for their employees.

Bike

The clinic building will include internal bike storage, showers, lockers and changing rooms to encourage bike use by employees. The site master plan includes a new North South bike path to connect to the new development. The bike path will provide a connection to the Trillium Neighborhood to the west and will allow for bike and pedestrian connections.

Transit

The UW provides complimentary bus passes to all employees. The passes work for any city bus and this site is currently served by several bus routes on University Avenue and Whitney Way.

Future Transit

The corner of Whitney Way and Old Middleton Road has been designated for a future Light Rail Station and would provide excellent connectivity for all users of the site including the employees of the UW Hospital and Clinics.

Park and Ride

Madison Metro provides 4 free Park and Ride lots

Carpool

Carpool matching is available through Dane County's Rideshare program.

Vanpool

WI Department of Administration runs a statewide vanpool which many UW employees use.

Custom Route Planning and Individualized Marketing

UW Transportation Services periodically sends out (or holds special events to distribute) targeted marketing information on alternatives to driving. For those with an interest, we can provide a tailored information packet including door-to-door transit and bicycle routes and/or advice on using our support services or taking alternative modes.

Traffic Study

A traffic study is partially completed and will be part of the final SIP submittal.

Public Assistance

Build out of the project at densities requiring parking ramps is dependent on Tax Incremental Financing. Preliminary discussions have occurred with the city and a TIF application is in the process.

1.2 LEGAL DESCRIPTIONS

GENERAL DEVELOPMENT PLAN

Part of Lot 2 Certified Survey Map No. 4473, recorded in Volume 19 of Certified Survey Maps on Pages 181 and 182 as Document No. 1850622 and a parcel of land located in the SE1/4 and SW1/4 of the SE1/4 of Section 18 and in the NE1/4 and NW1/4 of the NE1/4 of Section 19, T7N, R9E, City of Madison, Dane County, Wisconsin to-wit: Commencing at the north quarter corner of said Section 19; thence N88°39'15"E along the north line of said NE1/4, 662.06 feet to the point of beginning; thence N00°11'21"W, 486.39 feet; thence N44°18'07"E, 182.13 feet; thence S43°38'23"E, 74.49 feet; thence N44°17'58"E, 237.90 feet to the southerly right-of-way line of University Avenue and a point of curve; thence southeasterly, along said southerly right-of-way line, on a curve to the left which has a radius of 2,925.00 feet and a chord which bears S46°42'50"E, 224.44 feet; thence S46°06'07"E, 90.04 feet to a point of curve; thence southeasterly on a curve to the left which has a radius of 2052.00 feet and a chord which bears S54°17'02"E, 171.45 feet to a point on a curve; thence southeasterly on a curve to the left which has a radius of 2925.00 feet and a chord which bears S55°10'19"E, 117.15 feet to a point of reverse curve; thence continuing along said southerly right-of-way line and westerly right-of-way line of Whitney Way, on a curve to the right which has a radius of 75.00 feet and a chord which bears S13°47'28"E, 105.21 feet; thence S30°19'22"W along said westerly right-of-way line, 127.18 feet; thence S12°03'20"E along said westerly right-of-way line, 215.17 feet; thence S12°19'04"E along said westerly right-of-way line, 4.96 feet; thence N85°21'00"W, 144.57 feet; thence N89°34'30"W, 271.00 feet; thence S00°25'30"W, 319.96 feet to the State of Wisconsin Department of Transportation north right-of-way line and a point on a curve; thence northwesterly on a curve to the right which has a radius of 2406.20 feet and a chord which bears N84°14'42"W, 397.06 feet; thence N00°11'21"W, 343.86 feet to the point of beginning. Containing 624,281 square feet (14.332 acres).

SPECIFIC IMPLEMENTATION PLAN

LOT 1 LEGAL DESCRIPTION PARCEL TO BE ZONED SIP

A parcel of land located in the SW1/4 of the SE1/4 of Section 18, T7N, R9E, City of Madison, Dane County, Wisconsin to-wit: Commencing at the south quarter corner of said Section 18; thence N88°39'15"E, 662.06 feet; thence N00°11'21"W, 248.94 feet to the point of beginning; thence continuing N00°11'21"W, 131.20 feet; thence N44°17'58"E, 493.15 feet to the southerly right-of-way of University Avenue and a point of curve; thence along said right-of-way line, southeasterly on a curve to the left which has a radius of 2,925.00 feet and a chord which bears S46°42'50"E, 224.44 feet; thence S46°06'07"E along said right-of-way line, 68.47 feet; thence S38°18'40"W, 36.13 feet; thence S24°11'45"W, 98.41 feet; thence S38°18'40"W, 211.56 feet to a point of curve; thence southwesterly on a curve to the left which has a radius of 268.00 feet and a chord which bears S34°22'25"W, 36.81 feet; thence N59°33'50"W, 64.48 feet; thence S89°48'40"W, 286.44 feet to the point of beginning. Containing 163,135 square feet (3.745 acres).

Provide a brief description of the project and all proposed uses of the site: _____
In-fill redevelopment creating an urban campus environment including clinic, hospitality, retail, office, and housing uses.

Development Schedule: Commencement Nov 2011 Completion Jan 2013 (SIP), Jan 2019 (GDP)

J.S.
LLC

5. Required Submittals:

- Plans** submitted as follows below and depicts all lot lines; existing, altered, demolished or proposed buildings; parking areas and driveways; sidewalks; location of any new signs; existing and proposed utility locations; building elevations and floor plans; landscaping, and a development schedule describing pertinent project details:
 - **7 copies** of a full-sized plan set drawn to a scale of one inch equals 20 feet (collated and folded)
 - **7 copies** of the plan set reduced to fit onto 11 inch by 17 inch paper (collated, stapled and folded)
 - **1 copy** of the plan set reduced to fit onto 8 ½ inch by 11 inch paper
- Letter of Intent (12 copies):** describing this application in detail including, but not limited to: existing conditions and uses of the property; development schedule for the project; names of persons involved (contractor, architect, landscaper, business manager, etc.); types of businesses; number of employees; hours of operation; square footage or acreage of the site; number of dwelling units; sale or rental price range for dwelling units; gross square footage of building(s); number of parking stalls, etc.
- Legal Description of Property:** Lot(s) of record or metes and bounds description prepared by a land surveyor. For any application for rezoning, the description must be submitted as an electronic word document via CD or e-mail. For applications proposing rezoning to more than one district, a separate description of each district shall be submitted.
- Filing Fee:** \$ 4,050 See the fee schedule on the application cover page. Make checks payable to: *City Treasurer.*
- Electronic Submittal:** All applicants are required to submit copies of all items submitted in hard copy with their application (including this application form, the letter of intent, complete plan sets and elevations, etc.) as Adobe Acrobat PDF files on a non-returnable CD to be included with their application materials, or in an e-mail sent to pcapplications@cityofmadison.com. The e-mail shall include the name of the project and applicant. Applicants unable to provide the materials electronically should contact the Planning Division at (608) 266-4635 for assistance.

In Addition, The Following Items May Also Be Required With Your Application:

- For any applications proposing demolition or removal of existing buildings, the following items are required:
 - Prior to the filing of an application, the applicant or his/her agent is required to notify a list of interested persons registered with the City **30 or 60 days prior to filing** their application using the online notification tool found at: <https://www.cityofmadison.com/developmentCenter/demolitionNotification/>
 - A photo array (6-12 photos) of the **interior and exterior** of the building(s) to be demolished or removed. A written assessment of the condition of the building(s) to be demolished or removed is highly recommended.
 - Note: A Reuse and Recycling Plan approved by the City's Recycling Coordinator is required prior to issuance of wrecking permits and the start of construction.
- Zoning Text (12 copies):** must accompany Planned Community or Planned Unit Development (PCD/PUD) submittals

6. Applicant Declarations:

- Conformance with adopted City plans:** Applications shall be in accordance with all adopted City of Madison plans:

→ The site is located within the limits of the City of Madison Comprehensive Plan, which recommends: (E) Employment, (NMU) Neighborhood Mixed Use, (TOD) Transit Oriented Design for this property.
- Pre-application Notification:** Section 28.12 of the Zoning Code requires that the applicant notify the district alder and any nearby neighborhood & business associations in writing no later than **30** days prior to filing this request:

→ List below the Alderperson, Neighborhood Association(s), Business Association(s) AND dates you sent the notices:
27 April 2011 - Alder Mark Clear; 10 May 2011 -Spring Harbor Neighborhood Association

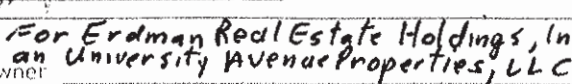

NOTE: If the alder has granted a waiver to this requirement, please attach any such correspondence to this form.
- Pre-application Meeting with staff:** Prior to preparation of this application, the applicant is required to discuss the proposed development and review process with Zoning and Planning Division staff; note staff persons and date.

Planning Staff: Brad Murphy Date: 4/18/11 Zoning Staff: Matt Tucker Date: 4/18/11
- Check here if this project will be receiving a public subsidy.** If so, indicate type in your Letter of Intent.

The signer attests that this form is accurately completed and all required materials are submitted:

SECTION TWO

2.1 Planned Unit Development Zoning

2.1 PLANNED UNIT DEVELOPMENT ZONING

1. **Legal Description:** Part of Lot 2 Certified Survey Map No. 4473, recorded in Volume 19 of Certified Survey Maps on Pages 181 and 182 as Document No. 1850622 and a parcel of land located in the SE1/4 and SW1/4 of the SE1/4 of Section 18 and in the NE1/4 and NW1/4 of the NE1/4 of Section 19, T7N, R9E, City of Madison, Dane County, Wisconsin to-wit: Commencing at the north quarter corner of said Section 19; thence N88°39'15"E along the north line of said NE1/4, 662.06 feet to the point of beginning; thence N00°11'21"W, 486.39 feet; thence N44°18'07"E, 182.13 feet; thence S43°38'23"E, 74.49 feet; thence N44°17'58"E, 237.90 feet to the southerly right-of-way line of University Avenue and a point of curve; thence southeasterly, along said southerly right-of-way line, on a curve to the left which has a radius of 2,925.00 feet and a chord which bears S46°42'50"E, 224.44 feet; thence S46°06'07"E, 90.04 feet to a point of curve; thence southeasterly on a curve to the left which has a radius of 2052.00 feet and a chord which bears S54°17'02"E, 171.45 feet to a point on a curve; thence southeasterly on a curve to the left which has a radius of 2925.00 feet and a chord which bears S55°10'19"E, 117.15 feet to a point of reverse curve; thence continuing along said southerly right-of-way line and westerly right-of-way line of Whitney Way, on a curve to the right which has a radius of 75.00 feet and a chord which bears S13°47'28"E, 105.21 feet; thence S30°19'22"W along said westerly right-of-way line, 127.18 feet; thence S12°03'20"E along said westerly right-of-way line, 215.17 feet; thence S12°19'04"E along said westerly right-of-way line, 4.96 feet; thence N85°21'00"W, 144.57 feet; thence N89°34'30"W, 271.00 feet; thence S00°25'30"W, 319.96 feet to the State of Wisconsin Department of Transportation north right-of-way line and a point on a curve; thence northwesterly on a curve to the right which has a radius of 2406.20 feet and a chord which bears N84°14'42"W, 397.06 feet; thence N00°11'21"W, 343.86 feet to the point of beginning. Containing 624,281 square feet (14.332 acres).
2. **Statement of Purpose:** This Planned Unit Development zoning is established to allow for the development of a mixed-use redevelopment project containing a mix of office, medical, retail and housing uses with accessory parking, as shown on the attached General Development Plan. Implementation of the Planned Unit Development is likely to occur in phases following approval of individual projects on one or more Specific Implementation Plans.
3. **Permitted Uses:** Uses as permitted on Exhibit A, attached hereto.
4. **Lot Area, Floor Area Ratio and Building Heights:** Lot Area, Building Heights and Floor Area Ratio shall be as shown on approved specific implementation plans.
5. **Yard Requirements:** Yard Areas and Usable Open Space for any residential units shall be provided as shown on approved specific implementation plans.
6. **Landscaping:** Site Landscaping shall be provided as shown on the approved specific implementation plans.
7. **Accessory Off-Street Parking & Loading:** Accessory Off-Street Parking & Loading shall be provided as shown on the approved specific implementation plans.
8. **Lighting:** Site Lighting shall be provided as shown on the approved specific implementation plans.
9. **Signage:** Signage will be provided per Chapter 31 of Madison General Ordinances (MGO), as compared to the C2 district, and as approved by the Urban Design Commission or its secretary and by the Zoning Administrator.
10. **Family Definition:** The Family Definition for any future multi-family dwelling units (including apartments, townhouses, etc.) shall coincide with the definition given in MGO Sec. 28.03, for the R4 zoning district.

11. Alterations and Revisions: No alteration or revision of this planned unit development shall be permitted unless approved by the City Plan Commission, however, the zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community & Economic Development and the alderperson of the district and are compatible with the concept approved by the City Plan Commission.

12. Outdoor Eating Areas: Outdoor Eating Areas for restaurants shown on approved specific implementation plans approved by the Plan Commission, or as minor alterations to approved and recorded specific implementation plans for existing restaurants when approved by the District Alderperson and Planning Division Director, with the following conditions or as otherwise provided for through the alteration process:

a. **Hours of Operation:** Sunday-Thursday – 7:00 am to 10:00 pm; Friday-Saturday – 7:00 am to 11:00 pm

b. **Music:** No outdoor amplification of sound is permitted

c. **Outdoor eating areas:** shall be subject to the Plan Commission’s continuing jurisdiction, as provided for in Section 28.12(11)h.4.

EXHIBIT A – PERMITTED USES

The following uses shall be permitted in this Planned Unit Development:

1. Amusement arcades.
2. Appliance stores.
3. Art and school supply stores.
4. Art galleries, antique shops and museums.
5. Automobile accessory stores.
6. Banks and financial institutions, including drive-up service windows for same when shown on an approved specific implementation plan.
7. Barbershops and beauty parlors.
8. Bedding sales.
9. Beauty supply stores.
10. Bicycle sales, rental and repair establishments.
11. Book, magazine and stationery stores, excluding adult bookstores.
12. Building supply stores.
13. Camera and photographic supply stores.
14. Candy, ice cream stores, and other food establishments.
15. Card and gift shops.
16. Carpet and Floor covering stores.
17. China and glassware stores.
18. Clothing and costume rental stores
19. Coffee shops
20. Coin and stamp shops
21. Dance studios.
22. Day care centers for children and adults.
23. Department stores.
24. Drugstores and pharmacies including drive-up service windows for same when shown on an approved specific implementation plan.
25. Dry cleaning and laundry establishments provided that no cleaning or laundering occur on premises.
26. Dry goods stores.

27. Electronic stores, including the sale and service of computer, audio, radio, telecommunications and television – video equipment and accessories.
28. Entertainment Uses, including Theater Uses.
29. Engraving businesses.
30. Express and parcel delivery establishments.
31. Financial institutions, including automated teller machines, banks, savings banks and credit unions, insurance agencies and securities dealers.
32. Florist shops and nurseries.
33. Food stores – grocery stores, meat stores, fish markets, bakeries, delicatessens, and catering establishments.
34. Furniture stores.
35. General Merchandise Retail Stores.
36. Gift shops.
37. Hardware stores.
38. Hobby shops.
39. Home Furnishings stores.
40. Hotels and hospitality uses as shown on approved specific implementation plans.
41. Household appliance stores, including radio and television sales and service.
42. Jewelry and watch stores, including repair.
43. Leather goods and luggage stores.
44. Libraries.
45. Liquor stores (packaged goods only).
46. Locksmith shops.
47. Luggage and travel stores.
48. Massage therapy.
49. Hospital, medical, dental, hearing, optical and allied medical clinics and offices and research laboratories, including accessory laboratories.
50. Musical instrument lessons, sales and repair.
51. Multi-family and senior residences as shown on the approved specific implementation plans, including home occupations as defined in MGO Sec. 28.04(26).
52. Nail salons.
53. Office supply and stationery stores.
54. Offices, business, government and professional.
55. Optical sales.
56. Orthopedic and medical appliance and supply stores.
57. Outdoor seating and recreation areas.
58. Parking lots, garages and structures.
59. Personal computers and home electronics, sales and service.
60. Pet stores and pet kennels, provided however there shall be no outdoor pet runs.
61. Phonograph, record and sheet music stores.
62. Physical culture, health services, reducing salons and health clubs/ gyms.
63. Physical therapy and therapeutic massage services.
64. Picture framing.
65. Post offices, including private parcel business.
66. Record, compact disc and cassette stores.
67. Restaurants, including brewpubs and restaurant-taverns and excluding adult entertainment taverns. Outdoor eating areas associated with the approved uses.
68. Sewing machine sales and service, household appliances only.
69. Shoe and hat repair stores.
70. Sporting goods stores.
71. Tailor shops.
72. Tobacco shops.
73. Toy shops.
74. Travel bureau and transportation ticket offices.
75. Upholstery and interior decorating shops.
76. Variety stores.
77. Veterinary clinics (outside kennels prohibited).
78. Video and video game rental and sale establishments, excluding adult video stores.
79. Wearing apparel and shoe shops.
80. Farmers markets for the sale of personally prepared food and handcrafted goods.
81. Secondhand and rummage shops.
82. Outdoor charging stations for electric and alternative vehicles.
83. Shared bicycle stations
84. Accessory uses directly associated with the permitted uses listed herein.

4.6 DEVELOPMENT STREET SECTIONS

CONCEPTUAL STREET DESIGN

The following diagrams illustrate the street sections as shown in the GDP master plan. The buildings are shown with minimal set backs to create definition of the public street space and enhance pedestrian access on the site. The street cross sections will serve as a template for the development of the street layouts with the goal of implementing balanced pedestrian and vehicular uses. The conceptual street designs will be finalized as part of the development agreement.

LEGAL DESCRIPTION: A portion of the University Crossing, located in the City of Madison, Wisconsin, is shown on the attached plan. The area is bounded on the north by Whitney Way, on the east by B Street, on the south by A Street, and on the west by University Avenue. The plan shows the layout of the crossing, including the proposed stormwater management system and the location of existing structures and utilities.

NOTES:
 1. Elevations referenced to MAD 88 Vertical Datum.
 2. Area of plot = 14.33 acres.

FUTURE PHASE
PARKING STRUCTURE

FUTURE PHASE
BUILDINGS

Note: In the practice of good stewardship and in alignment with Urban Design Commission recommendations, native plants and grasses are being substituted in the parking lot for some required trees. The General Development Plan phasing indicates this parking lot will be removed and replaced with a future building and parking structure. The required number of trees will be provided at that time.

FEATURES & SPECIFICATIONS

INTENDED USE — For building- and wall-mounted applications.

CONSTRUCTION — Rugged, die-cast, single-piece aluminum housing. Die-cast doorframe has a 1/8" thick tempered glass lens. Doorframe is fully gasketed with one-piece solid silicone.

OPTICS — Segmented reflectors for superior uniformity and control. Medium throw (MD) full cutoff distribution available.

ELECTRICAL — Ballast: Class P, multi-volt electronic, high power factor, <10%THD, with starting temperature of 0°F (-18°C).

Socket: High temperature thermoplastic with an integral lamp retention clip.

Finish: Standard finish is textured dark bronze (DBT) corrosion-resistant polyester powder finish. Additional architectural colors are available. Striping is also available.

INSTALLATION — Universal mounting mechanism with integral mounting support allows fixture to hinge down. Bubble level provides correct alignment with each installation.

LISTINGS — UL Listed (standard). CSA Certified (see Options). Suitable for wet locations (damp location listed in lens-up orientation). WLU option offers wet location listing in up orientation (see Options). IP65 Rated. 25°C ambient. ELED: U.S. Patent No. 7,737,640.

Note: Specifications subject to change without notice.

Notes

- 1 Multi-volt electronic ballast capable of operating on any line voltage from 120-277V.
- 2 May be ordered as an accessory. Prefix with "WS". Must specify finish.
- 3 Not available with GMF, EC, ELDWs.
- 4 Maximum allowable wattage lamp included.
- 5 Not available with MVOLT; must specify voltage.
- 6 Not available with 2/32TRT or 2/42TRT
- 7 Not available with DCs or EC.

- 8 Not available with 2/26DTT or 2/26TRT.
- 9 Not available with 2/42TRT.
- 10 Not available with EC, DCs OR ELDWs.
- 11 Must specify 120V or 277V.
- 12 Must be ordered with fixture; cannot be field installed.
- 13 See www.lithonia.com/archcolors for additional color options.
- 14 Black finish only.
- 15 Must be specified (35K lamp with LPI).

Consistent with LEED[®] goals & Green Globes[™] criteria for light pollution reduction

LR6™

6" Recessed Downlight

Product Information

Cree TrueWhite® Technology

- A better way to generate white light that utilizes a patented mixture of unsaturated yellow and saturated red LEDs.
- Tuned to optimal color point before shipment.
- Color management system maintains color consistency over time and temperature.
- Designed to last 50,000 hours and maintain at least 70% of initial lumen output.

Construction

- Durable die-cast aluminum upper housing, lower housing, and upper cover.
- Integrated thermal management system conducts heat away from LEDs and transfers it to the surrounding environment. LED junction temperatures stay below specified maximums even when installed in attic insulation with temperatures exceeding 60 degrees Celsius.

Optical System

- Proprietary optical system utilizes a unique combination of reflective and refractive optical components to achieve a uniform, comfortable appearance. Pixelation and direct view of unshielded LEDs are eliminated.
- White Lower Reflector balances brightness of refractor with the ceiling to create comfortable high-angle appearance. Works with refractor to deliver an optimized distribution that illuminates walls and vertical surfaces increasing the perception of spaciousness.

Electrical System

- Integral, high efficiency driver and power supply.
- Power factor > 0.9
- Input voltage = 120V, 60Hz.
- Dimmable to 20% with certain incandescent dimmers (reference www.CreeLEDLighting.com for recommended dimmers).

Regulatory and Voluntary Qualifications

- cULus Listed®. Suitable for damp locations.
- Utilize GU-24 base for new construction projects in California or other areas where high efficacy line voltage sockets are required.
- Exceeds California Title-24 high efficacy luminaire requirements.
- ENERGY STAR® qualified Solid-State Lighting Luminaire.

Photometry

0° - 60°	556	85.35	85.35
0° - 90°	650	100.00	100.00

Installation

- Designed to easily install in standard 6" downlight housings from Cree and other manufacturers.*
- Quick install system utilizes a unique retention feature. Simply attach socket to LR6. Move light to ready position and slide into housing.

* Reference www.CreeLEDLighting.com for a list of compatible housings.

6" Recessed Downlight

LR6™

F3

Product Description

The LR6 is a downlight module for new construction and retrofit that installs easily in most standard six inch recessed IC or non-IC housings. The LR6 downlight generates white light with LEDs in a new way that enables an unprecedented combination of light output, high efficacy, beautiful color, and affordability. U.S. Patent # 7,213,940 issued. Numerous patents pending.

Performance Summary

- Utilizes Cree TrueWhite® Technology
- Delivered Light Output = 650 lumens
- Input Power = 10.5 Watts
- CRI = 90
- CCT = 2700K or 3500K
- Dimmable to 20%
- Five Year Warranty

Ordering Information

- LR6 - 120V, Incandescent Color (2700K), Edison Base
- LR6-GU24 - 120V, Incandescent Color (2700K), GU24 Base
- LR6C - 120V, Neutral Color (3500K), Edison Base
- LR6C-GU24 - 120V, Neutral Color (3500K), GU24 Base

Accessories - Reference accessory product information sheets for more detail

Accessory Trims

- LT6A - Diffuse anodized finish
- LT6AW - Wheat diffuse anodized finish
- LT6AP - Pewter diffuse anodized finish
- LT6AB - Black anodized finish
- LT6WH - Smooth white
- LT6AG - Graphite diffuse anodized finish
- LT6BB - Black ABS thermoplastic full trim

Housings

- H6 - Architectural
- RC6 - New construction
- RR6 - Retrofit
- SC6 - Surface mount
- SC6-CM - Cord mount
- SC6-WM - Wall mount

FEATURES & SPECIFICATIONS

INTENDED USE — Streets, walkways, parking lots and surrounding areas.

CONSTRUCTION — Rugged, die-cast, single piece aluminum housing with nominal wall thickness of 1/8". Die-cast doorframe has impact-resistant, tempered, glass lens (3/16" thick). Doorframe is fully gasketed with one-piece tubular silicone.

Finish: Standard finish is dark bronze (DDB) corrosion-resistant polyester powder finish, with other architectural colors available.

OPTICS — MIRO finish, segmented reflectors for superior uniformity and control. Reflectors attach with tool-less fastener and are rotatable and interchangeable. Five full cutoff distributions available: Type II (roadway), Type III (asymmetric), Type IV (forward throw), Type IV (forward throw sharp cutoff) and Type V (symmetric square).

ELECTRICAL — Ballast: Constant wattage autotransformer. Metal Halide: Super CWA (pulse start ballast), 88% efficient and EISA legislation compliant, is required for 175-400W (SCWA option) for US shipments only. CSA, NOM or INTL required for probe start shipments outside of the US. Pulse-start ballast (SCWA) required for 200W, 320W, or 350W. Ballast is 100% factory-tested. All ballasts are mounted on a removable power tray.

Socket: Porcelain, mogul-based socket with copper alloy, nickel-plated screw shell and center contact.

LISTINGS — Listed and labeled to UL standards for wet locations. Listed and labeled to CSA standards (see Options). NOM Certified (see Options). IP65 Rated. U.S. Patent No. D556,357.

Note: Specifications subject to change without notice.

Consistent with LEED® goals & Green Globes™ criteria for light pollution reduction

METAL HALIDE: 175W - 400W
HIGH PRESSURE SODIUM: 200W - 400W

Specifications

Length: 32-7/8 (83.5)

Diameter: 25 (63.5)

Overall Height: 8-1/4 (21.0)

*Weight: 46 lb. (20.9 kg)

EPA: 0.91 ft² (0.08²)

All dimensions are inches (centimeters) unless otherwise indicated.

*Weight as configured in example below.

ORDERING INFORMATION

For shortest lead times, configure product using standard options (shown in bold.)

Example: MR2 400M SR3 TB SCWA LPI

Notes

- These wattages do not comply with California Title 20 regulations.
- Must order SCWA.
- These wattages require the REGC1 option to be chosen for shipments into California for Title 20 compliance. 250M REGC1 is not available in 347 or 480V.
- Must use reduced jacket lamp ED28.
- Not available with SCWA.
- Must specify CWI for use in Canada.
- Optional multi-tap ballast (120, 208, 240, 277V; 120, 277, 347V in Canada).
- Consult factory for available wattages.
- Mounted in lens-up orientation, fixture is damp location rated.
- May be ordered as an accessory.
- Must specify finish when ordered as accessory.
- Must specify voltage. Not available with TB.
- SF, DF or QRS options cannot be ordered together.
- Maximum allowable wattage lamp included.
- Order MR2SR2/3HS U or MR2SR4WS U as an accessory.
- Order MR2VG U as an accessory.
- See www.lithonia.com/archcolors for additional color options.
- Must be specified.

MR2 Metal Halide, High Pressure Sodium

MR2 400M SR3 Test No. LTL10099P

ISOILLUMINANCE PLOT (Footcandle)

400W pulse start metal halide lamp, rated 38,000 lumens. Footcandle values based on 20' mounting height.
Classification: Type III, Medium, Full Cutoff

MR2 400M SR4SC Test No. LTL10100P

ISOILLUMINANCE PLOT (Footcandle)

400W pulse start metal halide lamp, rated 38,000 lumens. Footcandle values based on 20' mounting height.
Classification: Unclassified (Type IV, Very Short), Full Cutoff

MR2 400M SR4W Test No. LTL10101P

ISOILLUMINANCE PLOT (Footcandle)

400W pulse start metal halide lamp, rated 38,000 lumens. Footcandle values based on 20' mounting height.
Classification: Type IV, Short, Full Cutoff

MR2 400M SR5S Test No. LTL10102P

ISOILLUMINANCE PLOT (Footcandle)

400W pulse start metal halide lamp, rated 38,000 lumens. Footcandle values based on 20' mounting height.
Classification: Unclassified (Type IV, Very Short), Full Cutoff

MR2 400S SR3 TEST NO: LTL10104

400W lamp, rated 50000 lumens. Footcandle values based on 20' mounting height.
Classification: Type II, Medium, Full Cutoff

MR2 400S SR4SC TEST NO: LTL10105

400W lamp, rated 50000 lumens. Footcandle values based on 20' mounting height.
Classification: Unclassified (Type IV, Very Short), Full Cutoff

Notes

- 1 Photometric data for other distributions can be accessed from the Lithonia Lighting web site (www.lithonia.com).
- 2 For electrical characteristics consult outdoor technical data specification sheets on www.lithonia.com.
- 3 Tested to current IESNA and NEMA standards under stabilized laboratory conditions. Various operating factors can cause differences between laboratory and actual field measurements. Dimensions and specifications are based on the most current data and are subject to change.

When ordering poles, specify the appropriate drilling pattern. See below example.

- Example: **SSA 20 4C DM19AS**
- DM19AS** 1 at 90 degrees
 - DM28AS** 2 at 180 degrees
 - DM29AS** 2 at 90 degrees
 - DM39AS** 3 at 90 degrees
 - DM49AS** 4 at 90 degrees
 - DM32AS** 3 at 120 degrees (round poles only)

DRILLING TEMPLATE # 8

Pole-Mounted Luminaire (not for suspend)

"A" recommended dimension
Aluminum Poles Only 1.750"
All Other Pole Types 2.750"

Note: Dimension varies by pole type to allow clearance for pole cap. Check pole cap depth if field drilling poles.

NOTE: This drawing is NOT to scale and should be used for dimensional purposes only.
