Re: All Saints Campus Phase III PD alteration

This package is a request to amend the approved PD for the All Saints Campus phase III. We are requesting that the exterior siding be changed from fibercement to vinyl to match phase one and phase two of the All Saints Campus. This request has the support and approval of the Alder (see attached email correspondence) Mr. Paul Skidmore. The correspondence also contains the Alder's waiver of the 30-day advance notice. Per the direction of Mr. Matt Tucker we are submitting the revised elevations only. The revised elevation has the requested material changed clouded.

If you need any additional information please feel free to contact me and we will address your concerns.

Respectfully,

David C. Baum  
*President A2K*
