NOTES

1. —→ Arrows indicate the direction of surface drainage swale at individual property lines. Said drainage swale shall be graded with the construction of each principal structure and maintained by the lot owner unless modified with the approval of the City Engineer. Elevations given are for property corners at ground level and shall be maintained by the lot owner.
2. All lots within this survey are subject to a public easement for drainage purposes which shall be a minimum of five (5) feet in width measured from the property line to the interior of each lot. Easements shall not be required on property lines shared with greenways or public streets. No structures may be constructed within said easement and no other obstructions to drainage, including landscaping are permitted without the prior written approval of the City Engineer.
