**** Landscape plans for zoning lots greater than ten thousand (10,000) square feet in size MUST be prepared by a registered landscape architect. ****

Landscape Calculations and Distribution

Required landscaped areas shall be calculated based upon the total developed area of the property. Developed area is defined as all parts of the site that are not left in a natural state within a single contiguous boundary, including building footprints, parking and loading areas, driveways, internal sidewalks, patios, and outdoor activity areas. Developed area does not include other land within required setbacks and natural areas on the same property that are left undisturbed.

- (a) One (1) landscape unit shall be provided for each three hundred (300) square feet of developed area, with the exception of the IL and the IG districts as specified in (b) below.

Total square footage of developed area 6,359

Developed area divided by three hundred (300) square feet = 21 Landscape Units

- (b) Within the Industrial - Limited (IL) and Industrial - General (IG) districts, one (1) landscape unit shall be provided for every six hundred (600) square feet of developed area.

Total square footage of developed area _____

Developed area divided by six hundred (600) square feet = _____ Landscape Units

- (c) One landscape unit consists of five (5) landscape points. Landscape points are calculated as shown in the following table.

Landscape units multiplied by five (5) landscape points = 105 Total Points Required

Tabulation of Points and Credits

Use the table to indicate the quantity and points for all existing and proposed landscape elements. Calculations yielding a fraction up to one-half (1/2 or 0.5) shall be rounded down to the nearest whole number; fractions of more than one half (1/2) shall be rounded up.

Plant Type/ Element	Minimum Size at Installation	Points	Credits/ Existing Landscaping		New/ Proposed Landscaping	
			Quantity	Points Achieved	Quantity	Points Achieved
Overstory deciduous tree	2 1/2 inch caliper	35	1	35		
Ornamental tree	1 1/2 inch caliper	15	1	15		
Evergreen tree	3 feet tall	15	1	15		
Shrub, deciduous	18" or 3 gallon container size	2	6	12		
Shrub, evergreen	18" or 3 gallon container size	3	9	81		
Ornamental grasses	18" or 3 gallon container size	2				
Ornamental/ decorative fencing or wall	n/a	4 per 10 lineal ft.	2	8		
Sub Totals						

Total Number of Points Provided 106
