16. NOTE: The Alderperson and/or Neighborhood Association notice requirement may be waived if approved by the Alderperson, President of the Neighborhood Association, and Director of the Department of Planning and Development prior to submitting your application.

For Conditional Use Applications, the Zoning Ordinance states:

"Section 28.12(11)(g), <u>Standards</u>. The City Plan Commission shall grant no application for a conditional use unless such commission shall find all of the following conditions are present:

- (g) Standards. The City Plan Commission shall grant no application for a conditional use unless such commission shall find all of the following conditions are present:
 - 1. That the establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.
 - 2. That the City be able to provide municipal services to the property where the conditional use is proposed, given due consideration of the cost of providing such services. (Cr. by Ord. 13,012, 2-26-02)
 - 3. That the uses, values and enjoyment of other property in the neighborhood for purposes already established shall be in no foreseeable manner substantially impaired or diminished by the establishment, maintenance or operation of the conditional use.
 - 4. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
 - 5. That adequate utilities, access roads, drainage, parking supply, internal circulation improvements, including but not limited to vehicular, pedestrian, bicycle, public transit and other necessary site improvements have been or are being provided.
 - 6. That measures have been or will be taken to provide adequate ingress and egress, including all off-site improvements, so designed as to minimize traffic congestion and to ensure public safety and adequate traffic flow, both on-site and on the public streets.
 - 7. That the conditional use shall conform to all applicable regulations of the district in which it is located.
 - 8. That when applying the above standards to an application by a community living arrangement the City Plan Commission shall:
 - a. Bear in mind the City's general intent to accommodate community living arrangements.
 - b. Exercise care to avoid an over-concentration of community living arrangements, which could create an institutional setting and seriously strain the existing social structure of a community. Considerations relevant for this determination are:
 - i. The distance separating the proposed community living arrangement from other such facilities
 - ii. The capacity of the community living arrangement and the percent the facility will increase the population of the community.
 - iii. The total capacity of all the community living arrangements in the community.
 - iv. The impact on the community of other community living arrangements.
 - v. The success or failure of integration into communities of other community living arrangements operated by the individual or group seeking the conditional use permit.
 - vi. The ability of the community to meet the special needs, if any, of the applicant facility.

9. That when applying the above standards to any new construction of a building or an addition to an existing building the City Plan Commission:

a. Shall bear in mind the statement of purpose for the zoning district such that the proposed building or addition at its location does not defeat the purposes and objective of the zoning district, and

b. May require the applicant to submit plans to the Urban Design Commission for

comments and recommendations, and

c. May consider the use of the proposed building as it relates to the City's Land Use Plan. When a conditional use application is denied, the Plan Commission shall furnish the applicant in writing those standards that are not met and enumerate reasons the Commission has used in determining that each standard was not met. [Sec. 28.12(10)(g)8., Cr. by Ord. 5869, 6-1-77]

The undersigned applicant or authorized agent of the applicant hereby certifies that he or she has read all of the information contained in this application and that the same is true and correct.

The undersigned further understands and agrees that any review, recommendation, approval, or permit, based upon any statement, drawings, plans, evidence or information furnished by the applicant or any agent of the applicant to the Plan Commission or Common Council with respect to the project which is the subject of this application and which at the time made is misleading, inaccurate, untrue or incorrect in any material respect, shall be declared null and void by the Commission, issuing written notice thereof to the applicant or designated agent without further public hearing.

The following material is REQUIRED for all applications:

- Twelve (12) copies of a Letter of Intent describing this application in detail, including: a. Construction schedules, names of people involved (contractor, architect, landscaper, business manager, etc.), types of businesses, hours of operation, square footage or acreage of the site, number of dwelling units, number of employees, gross square footage of building, number of parking stalls, etc.
- Seven (7) copies of "Full Size" scaled site plans and seven (7) copies of reduced site plans b. on 11 inch by 17-inch paper. Scaled site plans to be drawn at a scale of one-inch equals 20 feet. All plan sets must include: A site plan showing all lot lines, building locations, building additions, demolitions, or changes, parking areas, driveways, sidewalks, location of any new signs, existing and proposed utility locations, and landscaping. Also include building elevations and floor plans. Plans must be drawn to scale and include all dimensions.

- c. A full and complete <u>legal description</u> of the site or property being subjected to this application. See attached instruction sheet regarding submittal of legal descriptions on computer diskette.
- d. A proper <u>street address</u> for this project as reflected by official City records or as officially assigned by the City Engineering Division.

Failure to submit any of the above-required items will result in the delay of scheduling your application for Plan Commission and/or Common Council review.
