

# Community input on the **Vilas Park** master plan will come from:

-  Focus groups - residents who are typically underrepresented at traditional public meetings
-  Resident Resource Group - nearby neighbors and organizational representatives to provide a variety of perspectives on park use
-  Interagency Staff Team - Planning, Traffic Engineering, Henry Vilas Zoo, Parks, UW Arboretum and Engineering staff to further discuss ideas brought forward from community input
-  Community Advisory Group - representatives from adjacent businesses and individuals/groups who are interested in parks and park-related activities at Vilas Park
-  State and Local Agency Staff - will provide input and technical oversight

YOU - we need your input to develop a plan reflective of the community!

- ✓ Attend a community input meeting
  - Take the online survey
  - Submit a comment card
