

February 27, 2023

**TO ALL MADISON PLUMBERS:**

Please see below for an updated schedule of charges for water meter applications which will be effective as of **March 1, 2023**, to reflect minor changes in water meter charges (between \$1.00-\$5.00 per meter) as authorized by the PSC. The Sewer Utility updated their charges last October as set forth in the previous letter.

In accordance with Madison General Ordinance Sec. 35.02 (6)(b)(3), the Madison Sewer Utility instituted a charge for public sewer use during the interim period prior to the installation of the water meter, which is collected in addition to the water meter charge. Both the water meter and sewer fees are based on the size of the meter to be installed. If you have any questions about the sewer charge, please contact the Sewer Utility at 608-266-4751.

The charges are as follows:

Meter Size:	Meter Charge	+	Sewer Charge	=	Total Application Fee
5/8"	\$84.00	+	\$100.00	=	\$184.00
3/4"	\$108.00	+	\$100.00	=	\$208.00
1"	\$144.00	+	\$180.00	=	\$324.00
1½"	\$252.00	+	\$375.00	=	\$627.00
2"	\$390.00	+	\$580.00	=	\$970.00
3"	\$654.00	+	\$1,065.00	=	\$1,719.00
4"	\$1,002.00	+	\$1,750.00	=	\$2,752.00
6"	\$1,818.00	+	\$3,465.00	=	\$5,283.00
8"	\$2,790.00	+	\$5,520.00	=	\$8,310.00
10"	\$4,068.00	+	\$8,265.00	=	\$12,333.00
12"	\$5,346.00	+	\$11,010.00	=	\$16,356.00

The above procedure does not alter existing policies regarding (1) replacing services in older buildings, or (2) remodeling and performing other changes to buildings where water will be obtained from a metered supply. It should be noted also that water used for landscaping, "soaking sod", etc. is not considered for construction and, as a result, is to be metered.

If you have any questions, we will be pleased to meet with you or to assist you in any way that is possible or permitted to resolve them. Please call 608-266-4647.

Sincerely,

MADISON WATER UTILITY
