### Public Meetings: April 16 and April 19

1st Meeting Date and Time: Monday April 16, 2012 6:30 to 8:30 p.m.

Place: Goodman Community Center— 149 Waubesa St.

2nd Meeting Date and Time: Thursday April 19, 2012 6:30 to 8:30 p.m.

Place: Warner Park Community Center

**NORTH SHERMAN AVENUE WELL:** An Iron and Manganese filter is being planned for the well located on N. Sherman Avenue just north of Shabazz High School. The well, designated as Well 7 & constructed in 1939, is in need of upgrade and water quality dictates that a filter be constructed to remove iron and manganese

**Next Steps:** Currently construction is planned for 2014.

**Service Area:** Generally from Schlimgen to Tenny Park, Maple Bluff on the west and Packers Avenue on the East.

**OLBRICH PARK WELL:** An Iron and Manganese filter is being planned for the well located at the west end of Olbrich Park. The well, designated as Well 8 & constructed in 1945, will be upgraded and water quality dictates that a filter be constructed to remove iron and manganese.

**Next Steps:** Currently construction is planned for 2013.

**Service Area:** Generally the area south of E. Washington from Olbrich Park east to the Yahara River.

**EAST SIDE WELL REPLACEMENT:** Well #3, located at E. Johnson and 1st, was abandoned in 2008. A comprehensive review of the long term drinking water supply needs of the east side indicated the well needs to be replaced. A search for a suitable site is ongoing and has identified several potential well sites.

**Next Steps:** Currently construction is planned for 2017

**Service Area:** Generally east of the Yahara River to Stoughton Rd and Olbrich Park to Sycamore.

### **Become a community volunteer**

Everyone is invited to join a Citizen's Advisory Panel (CAP) for either the Well 3 Replacement Project or the Well 7 & 8 Filtration Project to assist Madison Water Utility in shaping these two projects. The Utility wishes to engage the public in the development of the facilities, to address community issues and concerns, and to preserve neighborhood character. The CAP works to ensure the community is fully informed and understands the project. Call 608-266-4651 if interested in volunteering
