

**EAST SIDE WATER SUPPLY PROJECT**

# INVITE

*Quality and Reliability since 1882*

**Madison  
Water  
Utility**

**Spring 2011**

*“Our role is to represent you, our fellow citizens. The main goal of the Learning and Listening Events is to give you ample opportunities to tell us what you expect from Madison’s drinking water supply and what the Water Utility might do to help our community prepare for the future.”*

~ CAP Members

## **Learning and Listening Event - June 27 and June 30**

**East Side Water Supply project** - The Madison Water Utility (MWU) and Citizens Advisory Panel (CAP) members invite you to attend a **Listening and Learning Event** to learn about the East Side Water Supply (ESWS) project and share with us your ideas for ensuring that the east side has safe, reliable and sufficient water. The meeting will be an open house, so stop by whenever you have time and stay as long as you’d like. *(details regarding meeting times and locations on back page).*

The overall objective of this study is to develop specific plans, projects, budgets and implementation schedules, that will support the continued supply of safe drinking water on Madison’s east side in an economically, socially, and environmentally sustainable manner.

The study area ranges from the Yahara River on the west to I -90 on the east, to Northport Drive and East Towne on the north to Buckeye Road on the south.

**Citizens Advisory Panel** - Since October of 2010, the ESWS CAP has been meeting to advise the water utility on public expectations for drinking water quality, water supply and demand, and water conservation. The CAP has drafted brief reports advising MWU on options for action. CAP members will be hosting these **Listening and Learning Events** along with the Water Utility representatives and consulting engineers to share information regarding draft advisories and to incorporate community input into the final drafts of the reports.

### **Topics we’ll discuss include:**

- **ESWS Project:** What is the East Side Water Supply project doing to answer your desire for a fully reliable water supply that is safe and clean? What are potential financial impacts?
- **Water Quality:** How might the MWU best meet expectations for water quality on Madison’s east side?
- **Supply and Demand:** How might the MWU best meet projected demand for water on the east side over the next 20 years?
- **Conservation:** How might the MWU and east side residents address the need for water conservation?

### **Anticipated project schedule:**

- 2012 - Well 15 Treatment
- 2013 - Well 8 Treatment
- 2014 - Well 7 Treatment
- 2015 - Well 3 Replacement

What’s next? Informational  
MWU Board Meeting, 4:30pm  
July 12, hearing at 6:00pm,  
MWU Administration Building,  
119 E. Olin Ave

*Bring your water bill on June 27 or 30 to calculate per capita water use!*
